

GRANT FOR RESIDENT RESEARCH

DEADLINE FOR APPLICATION:

Rolling

To be completed by Program Directors or Department Heads

The Foundation for Endodontics exists to support research and education in the specialty of endodontics. To demonstrate this commitment, up to \$500 is available for each incoming resident at every endodontic program to fund activities related to research. The funding is payable on a one-time basis. If this funding is applied to a research project that is submitted to via the Research and Scientific Affairs Committee, \$500 will be deducted from the funding recommended by the Research and Scientific Affairs Committee.

The money can be used for the following activities:

- To fund an individual resident's research project;
- Applied to a competitive research grant submitted through the Research and Scientific Affairs Committee;
- For travel to a meeting to present research;
- For travel to a Board Review Course;
- For other activities related to research;

To apply, complete the information below. One check will be remitted with the total funding for the program. The Summary Report (following page) is due one year from the date that the funding was received. This fillable PDF should be completed electronically and emailed to the development coordinator.

An additional \$500 grant is now available for each resident who uses the initial \$500 grant toward conducting research. The additional \$500 may only be used for research and will only be awarded if a resident's name and project title is included on this initial application. The additional \$500 becomes available after the initial \$500 grant has been awarded, used, and the appropriate follow up materials are sent to the Foundation

All residents at a program who wish to apply for the additional \$500 should apply together. To apply for the additional grant, a summary report with each resident's name, project title, and project completion details must be included as a cover page, with project abstracts attached in the same order they are listed. Abstracts should have the project title and resident's name clearly listed at the top. Materials for all eligible residents should be submitted at one time, in one mailing or electronic submission. For questions about this additional funding, please contact Foundation staff, 312/266-7255.

Application Information:

Institution: _____

Applicant Name (Program Director): _____

Professional Title: _____

Number of Residents: _____ Total Amount Requested (\$500/resident): _____

Resident Name	Project title	Funds Will be Applied to the Following Activities
